INDIVIDUAL FILTERS

from 01/02 - 31/03

You should never cut back on quality when it comes to filters. Your Komatsu machine must have original parts, and this applies to all types of filters. Clean lubrication and filtering are essential conditions for low maintenance costs and a long machine life. Too many large particles in the hydraulic system will always result in a shorter service life and impaired performance.

TRACK ADJUSTER

SALES PRICE

£380

RRP

£530

The Havel Mechanical track tensioner is easy to use and fits the majority of wheel tracks available on today's market. The tractive output of this tensioner is about 3000kg.

The Tensioner can be used with an impact gun, ratchet and socket or if you're still in the stone age, a spanner. It can be mounted one of two ways, either in the centre of the track pads or in the link between two track pads at the side.

All prices exclude VAT. Offer valid Friday 01/02 - Wednesday 28/02.
